Halotherapy

Dry Salt Aerosol Generators

since 1990

Halotherapy

What is dry salt therapy

What is Halotherapy?

Today, more and more people are suffering from respiratory issues. From pollution and smog to airborne diseases, pollens and toxins; never before has our society been faced with such a growing epidemic of respiratory ailments.

Halotherapy (dry salt therapy) has been researched over the past few decades.

WHAT IS DRY SALT THERAPY (HALOTHERAPY)?

Halotherapy (dry salt therapy) is a natural, drug-free, alternative treatment that may help to improve respiratory issues and skin conditions.

The key process involves a halogenerator crushing and grinding 99.99% Pure Grade Sodium Chloride (salt) into very tiny microparticles. The halogenerator, or halotherapy machine, then disperses these dry aerosol microparticles of salt into the salt therapy room, salt cave, halotherapy sauna, or salt booth during a typical session.

As an individual undergoes a salt therapy session, they inhale the microparticles. The particles penetrate deep into the lungs, bronchi, bronchioles, and alveoli to address respiratory concerns.

At the same time, the non-inhaled salt particles are absorbed by the body to combat skin conditions. Salt therapy can offer both respiratory (lungs and breathing) and cutaneous (skin-related) benefits. Additionally, the relaxing, calm environment offered by salt room therapy can help with stress reduction.

Most people are familiar with “wet” salt therapy. Whether you’ve put salt in a bath, had a saline solution treatment, used a Nettie pot to clear your nasal passages, or gargled with saltwater, wet salt has its benefits.

Dry salt room therapy is different. The drier the salt, the better.

That is why halotherapy protocols include heating the salt prior to putting it into the salt chamber. Heat ensures that all moisture is evaporated. When the salt is crushed and ground into microparticles and inhaled, the salt particles can do their best job.

The Benefits Of Salt Room Therapy

Halotherapy benefits adults and children alike, as well as athletes and animals. It is natural and safe and there are no side effects.

A majority of people who visit salt rooms on a regular basis may find relief from a variety of respiratory conditions. These include, among many others:

- Asthma
- Allergies
- Common cold
- Bronchitis
- COPD
- Cystic fibrosis
- Sleep Apnea

Dry salt therapy is great for people who also have particular skin conditions such as eczema, acne and psoriasis. Salt therapy may also provide help when someone is recovering from cosmetic surgery.

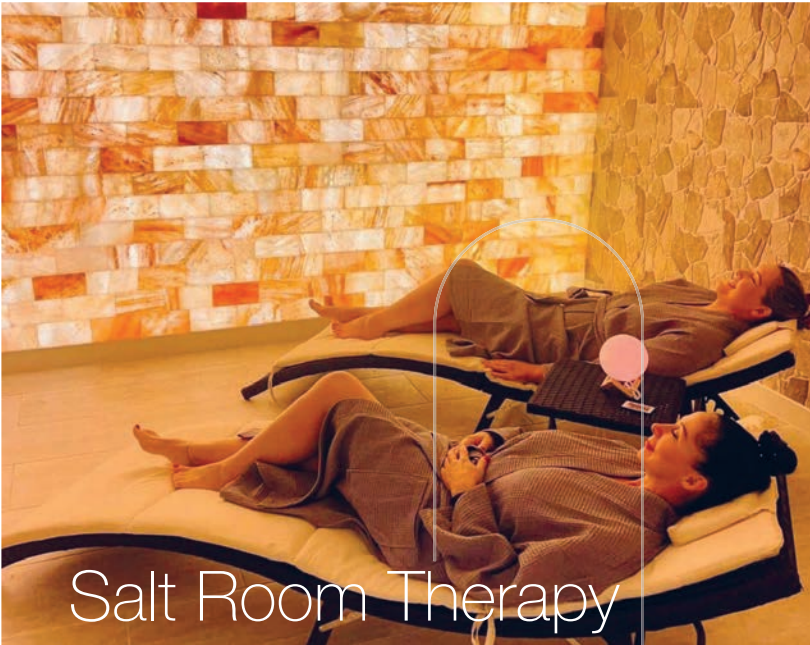

However, one does not need to have any specific conditions to gain benefits from dry salt therapy.

Halotherapy is very beneficial for overall general wellness. It removes toxicity from the respiratory system. People are exposed on a daily basis to pollutants, airborne diseases, bacteria, allergens and other irritating and harmful factors.

Halotherapy is an excellent way to cleanse and detox the lungs. It can also help to invigorate the whole body by supporting increased lung capacity and oxygen intake.

Interested in salt therapy for general respiratory hygiene? Visiting your local salt therapy facility once or twice a week will enhance lung capacity, boost the immune system, reduce stress, and support better sleep.

Many chronic and acute respiratory conditions require increased frequency and consistency of sessions to realize the most benefits. We encourage you to make salt therapy a habit and a regular part of your health and wellness routine.

Salt Room Therapy

The Benefits of Salt Room

PRIZMA

DRY SALT AEROSOL GENERATORS

No halotherapy without a halogenerator. Dry salt therapy (halotherapy) can only be provided by utilizing a professional-quality halogenerator. Salt particle size emitted from the halogenerator must be 5 microns or less (the smaller the better) Dry salt therapy (Halotherapy) can only be provided in an enclosed space to contain the salt particles in the area such as a room, booth, cabin, or other type of chamber.

Prizma is producing the own line of dry salt aerosol generators with EC and UL certificates for medical facilities and wellness / SPA centers.

On the device's touch screen or via the Android / Windows / IOS smart device is possible to make settings of device, such as salt consumption, start time, duration of halotherapy, dosage profile (device is offering 10 dosage profiles). Screen is readable even in the dark, thanks to the backlight.

Materials, which are in contact with salt, are made of stainless steel and plastic, that ensures long life of Prizma dry salt aerosol generators.

Our product range consists of:

- multiSALT+** – wellness / SPA device with UL certificate and CE mark for small salt rooms, salt cabins and tent
- PRIZSALT+** – medical device with EC certificate
- PRIZSALT+S** – wellness / SPA device with UL certificate and CE mark
- homeSALT** – home device with UL certificate and CE mark to be used also in salt room, tent, cabin or in outdoor spaces
- nanoSALT** – home device with UL certificate and CE mark to be used also in salt room, tent, cabin or in outdoor spaces

DEVELOPED & MADE IN SERBIA

multiSALT+

- Wellness/SPA device
- Wireless management Prizma Link app
- Up to 9 programs personalization

Technical Data

- Touch screen operated
- Personalization of up to 9 programs: duration of inhalation and salt dosing
- Capacity of the salt container: max 35 g
- Salt consumption: 0-100 g/h (adjustable)
- Operating voltage/frequency: 100-240 V AC, 50/60 Hz
- Power consumption: 18 W
- Dimensions: 225 × 218 × 395 mm
- Weight: 8 kg

CONTENTS OF THE KIT:

multiSALT+ dry salt aerosol generator, cleaning equipment, power cord, deflector, extension tube, software and instruction manual.

PRIZSALT+

CE 1304

- **Medical device**
- **Wireless management**
Prizma Link app
- **Up to 9 programs**
personalization

Technical Data

- Touch screen operated
- Personalization of up to 9 programs:
duration of inhalation and Salt dosing
- Capacity of salt dispenser: max 150 g
- Salt consumption: 0-500 g/h (adjustable)
- Operating voltage/frequency:
100-240 V AC, 50/60 Hz
- Power Consumption: 35 W
- Dimensions: 270 x 260 x 480 mm
- Weight: 13.5 kg

CONTENTS OF THE KIT:

PRIZSALT+ dry salt aerosol generator, cleaning equipment, power cord, deflector, extension tube, software and instruction manual.

PRIZSALT+S

UL CE

- **Wellness/SPA device**
- **Wireless management**
Prizma Link app
- **Up to 9 programs**
personalization

Technical Data

- Touch screen operated

duration of inhalation and Salt dosing
- Capacity of the salt dispenser: max 150 g
- Salt consumption: 0-500 g/h (adjustable)
- Operating voltage/frequency:
100-240 V AC, 50/60 Hz
- Power consumption: 35 W
- Dimensions: 270 x 260 x 480 mm
- Weight: 13.5 kg

CONTENTS OF THE KIT:

PRIZSALT+S dry salt aerosol generator, cleaning equipment, power cord, deflector, extension tube, software and instruction manual.

homeSALT

- **New approach in halotherapy**
- **Home device for indoor and outdoor spaces**
- **Remote control**
4 programs of operation

Technical Data

- Remote control: Operate from a distance
- Programs of operation: 4 programs of operation
- Led indicator: Light indication of device status
- Operating voltage: 24 V
- AC/DC adapter
100-240 V AC, 47-63 Hz, 1.6-0.7 A
24 V DC, 2.6 A max
- Power consumption: 15 W
- El.protection class: Class III
- Salt tank capacity: 20 g maximum
- Dimensions: 113 × 236 × 70 mm
- Net weight: 1 kg

CONTENTS OF THE KIT:

homeSALT dry salt aerosol generator, AC/DC adapter, remote control key fob, brush and instruction manual.

nanoSALT

- **New approach in halotherapy**
- **Small dimension battery operated**
- **Portable**

Technical Data

- 10 inhalations with a fully charged battery
- Battery charge indicator
- Empty battery indicator
- Indicator of blocked motor
- Open cover indicator
- Operating voltage: 6V DC
- AC/DC adapter:
100-240 V AC, 50-60 Hz, 0.5 A
5 V 3 A DC
- Power consumption: 8 W
- El.protection class: Class III
- Salt tank capacity: 5 g
- Dimensions: 170 × 50 × 60 mm
- Net weight: 0.5 kg

CONTENTS OF THE KIT:

nanoSALT dry salt aerosol generator, AC/DC adapter, brush and instruction manual.

The following authorities spoke about
the benefits of halotherapy

during STAcon LIVE 2024 in Orlando Florida,
in occasion of 10th anniversary
of Salt Therapy Association

Allan Share
President of the Spa Industry Association

As President of the Spa Industry Association with thousands of connections across the globe and a dedicated and knowledgeable team, I have learned some valuable lessons about what it takes to succeed in the spa and wellness world. Now more than ever is the time to be sharing these insights with one another, and so, I'll continue doing what I enjoy and share some of this information.

Leo Tonkin
Founding Director of the STA

Leo has been instrumental in developing salt/halotherapy into an entire wellness modality and industry. He initiated establishing the Salt Therapy Association 10 years ago working with the leading researchers, physicians, healthcare providers, manufacturers, and owners. Twelve years ago, he started SALT Chamber, the pioneering company leading the salt therapy and wellness industry with over 3,600 projects and installations. He brings over 30 years of leadership, culture, and strategy consulting expertise to entrepreneurial start-ups to FORTUNE 100 companies working with Stephen Covey, Ken Blanchard and others. He leverages his extensive experience by collaborating with other industry experts in his role as the founding chairman of the Salt Therapy Association and Chair of the Global Wellness Institute's Respiratory Wellness Initiative. He actively shares his knowledge by presenting at conferences like Biohacking, Cryotherapy, Floatation, and others, engaging with various sectors of the global wellness industry, including fitness, hospitality, and spas. He is also a cancer survivor.

Dr. Mark Erath
Professor Mayo Clinic. TED-TALK Presenter

Dr. Mark Erath, M.D.: Physician, Scientist, Inventor, Social Entrepreneur, and TEDx Speaker. Emeritus professor at Mayo Clinic College of Medicine & Science. During his 25-year tenure at Mayo, Dr. Erath authored over 100 peer-reviewed publications and presented more than 250 lectures globally. For the past decade, he has focused on combating airborne disease transmission and addressing the health impacts of air pollution. In this field, he has evaluated various technologies, worked as a consultant, and delivered a TEDx Talk titled "One Less..." on April 6, 2022, at TEDx University.

Jean Guy de Gabriac
Founder of World Wellness Weekend

Award-winning educator in Guest experience, specializing in elevating skills and engagement for Hotel and Spa teams. Celebrating 20 years as CEO of TIP TOUCH International (2004-2024). Founder of World Wellness Weekend, celebrated by 8,000+ venues in 150 countries with 60 supporting organizations. The 8th edition is scheduled for 20-22 Sept 2024 (9th edition: 19-21 Sept 2025). Additional roles include Conference producer for World Spa & Wellness Convention London, Board Member of the International Massage Association, and judge for both the World Massage Championship and World Spa & Wellness Awards.

Shoshana Treichel
Above and Beyond Yoga & Salt Therapy Center

After a 1986 attack in NYC, Shoshana became a world-record-holding powerlifter and top women's bodybuilder. She owns Above and Beyond Yoga and Salt Therapy facility, develops university weightlifting curricula, and trains elite athletes. As a trainer, nutritionist, and yoga instructor, she's helped clients transform their bodies, working with NFL, NBA, and MMA professionals.

Debra Hope Duneier
EchoChi

An esteemed Master Feng Shui practitioner, accredited LEED® Green Associate, Certified Eco-Designer, and Graduate Gemologist, Debra will be leading a session on "Designing Wellness Experiences & Environments". Learn how to create spaces that enhance well-being and sustainability.

Steve Woods
Salt Mind Health / Promerica Health

Former NBA and MLB agent, tennis promoter, and sports marketing professor. Co-owner of an NBA team and Owner of Restore Hyper Wellness group. CEO of Promerica Health, a global health engagement company. He is also the founder and owner of Salt Mind Health.

Craig Ure
Marketing & Business Growth

Digital marketing strategist with almost three decades of experience in business growth strategy and implementation. Turning this experience and specialized skillset into digital transformations and automations for SMB's leveraging AI solutions and architecture. Host of the STA bi-weekly Marketing Mastermind.

Peter Kater

Multi-Grammy winning and Multi-Platinum selling pianist, composer, producer and breathwork practitioner

Kater will lead an immersive exploration of how music and breathwork can transform well-being. Attendees will experience the power of breathwork firsthand in a guided session from his new SPIRITUS breathwork album, followed by a live Q&A session, providing a unique opportunity to engage with the artist. This session promises to be a profound experience, highlighting the therapeutic potential of combining music and breathwork for holistic health. The term "Spiritus" is Latin for "breath" or "to breathe," reflecting the profound connection between breathwork and holistic wellness.

Eddie Fisher

Chairman of The Board for The American Lung Association of Orlando & Southeast Regional Board

Financial advisor with 23+ years experience in personalized wealth management strategies. Chairman of the Orlando Florida Board and Southeast Regional Board of Directors for the American Lung Association. Received 2022 Southeast Region Board Member of the Year. Supports lung health causes in memory of his parents.

Tara Grodjesk

President of Earthlite Spa and Wellness Products

As a consultant to resorts and hotels in the creation of new and exciting signature spas including products and treatment program menus. Tara has trained over 3000 massage therapists and aestheticians internationally and continues to educate spa staffs in the wisdom and techniques of Aromatherapy and Ayurveda.

Amy Davis

Owner of Just Breathe Salt Therapy Wellness Spa

Amy, owner of Just Breathe Salt Therapy Wellness Spa in Winter Park, FL, transitioned from a 32-year TV sales career to wellness. She applies her marketing expertise to grow the spa, offering innovative salt therapy treatments. Amy enjoys travel and beach time with family, including her two children and five grandchildren.

Dr. Tami Peavy MBA, MPT, DPT, CEO CEO and Clinical Director of La Mesa Rehab

Dr. Tami Peavy is a distinguished Doctor of Physical Therapy with over 20 years of experience and advanced degrees from the Medical College of Georgia, Northwestern University, Indiana University, and Utica University. As the CEO and Clinical Director of La Mesa Rehab in San Diego, she specializes in pulmonary rehabilitation, offering a unique program that combines respiratory therapy and physical therapy treatments. Dr. Peavy leads a multidisciplinary team providing high-quality care for patients.

Dr. Daniel Layish Board Certified Pulmonary Disease, Critical-care

Dr. Layish is a pulmonologist with experience in a wide range of lung conditions, including COPD, pleural effusion, and sleep apnea. While he treats many respiratory issues, his particular areas of interest include pulmonary hypertension, sleep disorders, cystic fibrosis, alpha-1 antitrypsin deficiency, and lymphangioleiomyomatosis.

Emmanuel Verduzco Co-Founder / CEO - Ageless Fitness Corp.

CEO and co-founder of Ageless Fitness Corp. Serial entrepreneur with 4 startups focused on services for older adults. Former social worker in California. Launched a homecare franchise in 2014, followed by ventures in non-emergency medical transport, specialized fitness for seniors, and advocacy. Successfully franchised his adaptive fitness program for older adults in 2020.

Clayton Joyner Founder and CEO of MODRN Digital

Clayton Joyner, CEO of MODRN Digital, is a leader in digital growth strategies. With executive experience as COO and CMO, he guides businesses through digital transformation. His expertise in marketing technology helps companies navigate the complex digital landscape, driving innovation and optimizing growth in the modern era.

Brayden D. Whitlock, JD, PhD
 Director of Research Outbreaker Solutions

Former biotech professional turned lawyer with a PhD in toxicology. Specializes in facilitating technical collaborations and transactions. Experienced educator skilled at explaining complex concepts. Serves on various boards and committees. Teaches health innovation, law, and research methodology. Published researcher and advocate before courts, tribunals, and regulators including the US EPA and Health Canada.

Jimmy Youngblood
 President - Osteostrom /
 Inventor of the Red Halo FX

A pioneering figure in biohacking for nearly a decade, Jimmy serves as the President and CTO of Osteostrom. He is a visionary inventor at the forefront of cutting-edge health and wellness technologies, with a focus on skeletal strength and red light therapy products. Renowned for harnessing the frontiers of science to drive unprecedented breakthroughs, Youngblood is the driving force behind technologies that redefine bone health and vitality. His innovations hold immense financial promise for business owners and entrepreneurs. Jimmy has been a pioneer in developing red light therapy and is the inventor of the "Red Halo FX," recognized as the most versatile and powerful system in its field.

Lars Lofstrand
 Cryotherapy Industry National Association

A "Serial Entrepreneur" who has started, owned, and run over 22 different businesses. Passionate about helping aspiring and established entrepreneurs achieve success. A respected leadership authority, author, teacher, speaker, futurist, and organizational consultant. Bestselling author of "Sticky Money" and "Real Estate Game Changers." Consistently rated as a top speaker and facilitator at global conferences and seminars. His appeal transcends age, culture, and occupational barriers.

Tammy Pahel
 VP of Spa & Wellness at Carillon Miami

Tammy's tenure at Carillon Miami has been marked by a commitment to elevate spa and wellness operations. They've successfully integrated technology and medically focused treatments to set new industry benchmarks. Empowering guests to achieve optimal health, and their team is driven by the collective goal of nurturing individual potential.
